

YAKIMA®

TAKE IT EASY.

SPRING/SUMMER 2021

A white SUV is driving on a dirt road that winds through a dense forest of tall evergreen trees. The road is dusty, with a cloud of brown dust trailing behind the vehicle. In the background, a large, rugged mountain peak is covered in snow, rising above the treeline under a clear blue sky. The scene is captured from a low angle, looking down the road towards the mountain.

Our story is more of a journey, because we've never been good at sitting still. After all, we don't have wild sides; we have wild souls. For four decades, our trusted solutions have transformed the way people travel. We're leaders in our category, packing heritage, safety, design sensibility, and street smarts into every product. Based in the Pacific Northwest, we've got the great outdoors at our doorstep. From valleys and peaks to banks and backlands, the grounds we roam make us feel at home. We give everyone the freedom to wander, the right to be unruly, and the confidence to go more rogue.

Introducing EXO™ System

ABOVE: Loaded up, but not weighed down, the Tackett family hits their favorite spot.

Meet Your New Favorite Multitool

CARRY EVERYTHING YOU NEED

If there's one thing outdoor exploring demands, it's flexibility. One minute you're cooking breakfast, the next you're loading up bikes and boards. Your program demands a lot, and your rack needs to keep up. The new EXO System is designed to do just that. Built with maximum versatility in mind, its modular design means it can be customized to suit whatever your hauling needs demand.

Family camping? The unique two-level system, and 20 different combinations, means EXO lets you load up, head out, and get after it with ease. Multisport weekend adventures? A hitch-mounted position frees up the roof to carry SUPs, kayaks, canoes, or a SkyRise HD tent—not to mention whatever other oversize gear you can throw at it—as well as taking advantage of the vertical space at the rear of the vehicle to maximize carrying capacity. With unique system components like the BackDeck table top, you can add a work surface for kitchen prep or gear work, and the entire system swings away from the vehicle when loaded for easy access without unloading. The EXO is more than just a rack, it's a system designed to help minimize hassle, so you can maximize your time outside.

The Mechanics of EXO™ System

Twenty unique configurations for rear of car gear hauling.

Create Two Levels for Mounting Gear

A 2-inch hitch receiver is required.

EXO SwingBase™

The EXO SwingBase is the foundation to the EXO System. This is what attaches to the vehicle's 2-inch hitch receiver and swings out 90°.

EXO TopShelf™

Attaches to the EXO SwingBase and allows for a second level of gear storage. Rotates 180° relative to the EXO SwingBase.

SAFETY FIRST

EXO LitKit™

Safety check list complete. EXO LitKit provides a license plate mount and taillights for safe travels when EXO is fully loaded.

Add Gear Mounts for Your Adventures

All EXO gear mounts work on either level, SwingBase or TopShelf.

EXO GearLocker™

Thermo-formed locking cargo box with 10-cu. ft. of space.

EXO DoubleUp™

Premium locking 2-bike carrier accommodates fat bikes, mountain, road, and lifestyle bikes.

EXO GearWarrior™

Great for rigid gear like coolers, firewood, and totes.

EXO SnowBank™

This premium snow-gear-bank houses and locks up to 5 pairs of skis / 4 snowboards.

EXO BackDeck™

This bamboo topper installs to the EXO TopShelf to create a flat work surface.

EXO GearTotes™

4 GearTotes fit perfectly into the EXO GearLocker cargo box.

EXO WarriorWheels™

Conveniently turns the EXO GearWarrior into a wagon.

Alana Nichols

Paralympic Gold Medalist

Alana is one of America's most accomplished athletes. From a young age, she developed a passion for sports and adventure. Her life would take an unexpected turn, at age 17, when a snowboarding accident left her paralyzed. Refusing to let life slow her down, she made the transition to adaptive sports. Three Gold medals later, Alana is hardly finished. She is a triple threat in Alpine Skiing, Basketball, and Sprint Kayaking. Being the first American woman to win gold in both the Summer and Winter Games as a Paralympian.

Brock Keen

Porsche 996 Aficionado, Car-Camper

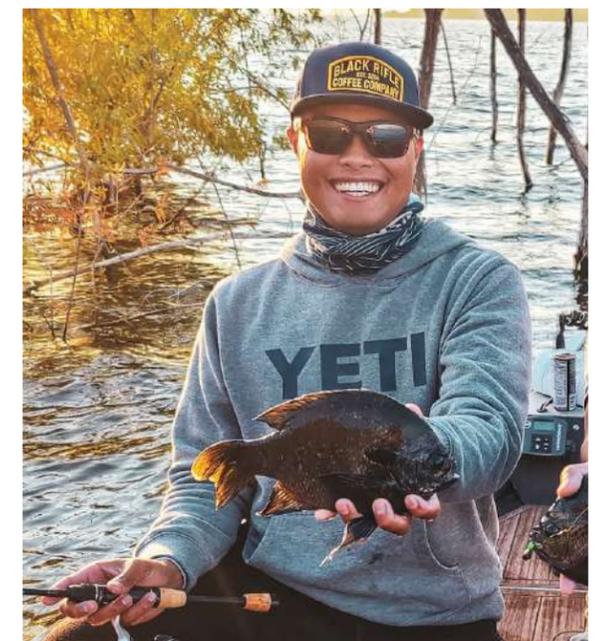

Brock aka @966roadtrip started a movement amongst sports car enthusiasts when he decided to put a Yakima SkyRise rooftop tent on his Porsche 996 C46. His photos on Instagram became a social media sensation. Brock has been racking up the miles on countless road trips. Taking his Porsche off the beaten path, come sun, rain, or snow. Setting up his basecamp with his wife and his regular companion dog Lucy. Brock, in true Yakima fashion, inspires people to get out and spend more nights under the stars.

Oliver Ngy

Angler, Founder of Big Bass Dreams

Oliver is a passionate angler who has dedicated his life to the pursuit and catch of the biggest most challenging fish in the world. He's the founder of the YouTube channel Big Bass Dreams. This is where he documents his journeys, encouraging many others to follow their dreams. Using the platform to influence the culture of fishing in the most positive way possible. He embodies Yakima values with his energy, enthusiasm, and relentless chase of adventure.

Take It Easy ROOF RACK 101

ORGANIZE AND TRANSPORT YOUR GEAR

Load up fast, so you can roll out easy. No matter what sort of adventures you get into, chances are you'll need to bring some gear. And the bigger the adventure, or the family, the more stuff you need to haul. That's where a roof rack comes in.

When you add a roof rack and other gear mounts to your vehicle—whether it's an adventure-mobile, a family wagon, or a magical minivan—it's not just about carrying bikes or boards. It's about making your life easier. The less you have to worry about how you'll stow your gear, the more you can think about what really matters, like finding fun and making memories. So, wherever you want to go, whatever you need to bring, we make it easy to Take It Easy.
